Foreword

The vision of a peaceful, inclusive, and progressive Africa resonates deeply within every African's heart. However, this dream is often challenged by the prevalence of violent conflicts across the continent. Sometimes, these conflicts stem from complex ethnic, religious, communal, poor governance and political divides. The reality is that fostering peace in deeply divided societies like those in Africa is a monumental task, however, we must courageously face it. Achieving lasting peace demands efforts from all quarters while managing communal conflicts effectively to ensure safety and promote human development is a task that requires collective action and sustained efforts. Since governments have a critical role in this endeavour, the involvement of citizens, faith-based organizations, and civil society is just as essential. It is through collaboration at all levels that real, sustainable peace can be built.

Recent global efforts, such as the meeting between Pope Francis and Grand Sheikh Ahmad Al Tayeb of Al Azhar, provide valuable hope. The joint statements made on human fraternity and the subsequent creation of a council dedicated to this cause signal the possibility of overcoming the challenges posed by our differences. One organization at the forefront of this campaign is the COFP Foundation. The Cardinal Onaiyekan Foundation for Peace (COFP) Fellowship Program stands as a beacon of hope and transformation, promoting interreligious dialogue, conflict resolution, and peacebuilding across the continent of Africa.

The Foundation has been a catalyst for community transformation and peace through its annual COFP Fellowship Program. This program has provided a unique platform for religious leaders and peace advocates from various religious, cultural and even political backgrounds to come together, discuss, and promote peace and security. The Fellowship program recognizes and celebrates the contributions of individuals from all cultures, religions, and beliefs, focusing on common values that can unite diverse communities in pursuit of peace. These individuals are empowered with the knowledge, skills, and networks necessary to address the challenges ahead. They are equipped to lead interfaith, intercultural, and peacebuilding initiatives that will contribute to the development of peaceful societies across Africa.

Through COFP Fellowship program, Fellows have come to recognize the transformative power of interfaith collaboration in combating violent extremism disguised as religious ideology. They stand as peacebuilders, ready to challenge the forces of division and conflict within their communities and beyond. As they step into the world at the end of the Fellowship program, they are urged to use their expertise to foster peace wherever they go. They are called to work for peace and justice, applying their skills, talents, and newfound knowledge in creating lasting change.

The journey toward a peaceful and inclusive Africa is neither swift nor easy, but with unwavering commitment, shared responsibility, and collective action, it is undoubtedly achievable. Let the COFP Fellowship program continue to serve as both an inspiration and a call to action, reminding us all that sustainable peace begins with our willingness to listen, engage, and build together.

+John Cardinal Onaiyekan (CON)
President and Founder, COFP Foundation
Archbishop Emeritus of Abuja

Preface

Building peace in an environment marked by ethnic strife, poor governance, terrorism, and insecurity is both a collective commitment and a fundamental responsibility of government. The Cardinal Onaiyekan Foundation for Peace (COFP) remains steadfast in engaging faith leaders and community actors across the continent to bridge divisions and foster inclusive societies that promote peace. It is evident that government efforts alone cannot achieve sustainable peace without the active involvement of civil society, faith-based organizations, and community groups. Therefore, strengthening citizen participation, enhancing community resilience, ensuring security, and promoting peace narratives that counter hate speech, mistrust, and stereotypes remain at the core of our mission.

This unwavering commitment to lasting peace and sustainable development has always been the foundation of our peacebuilding initiatives. Since its inception in 2018, the COFP Fellowship Program has provided a safe and dynamic platform to address contemporary challenges, particularly violent extremism, by fostering meaningful relationships and dialogue amid complex societal dynamics. This has reinforced our resolve to advance interfaith relations, empower communities, and cultivate a culture of peace.

The COFP Fellowship Program has become a cornerstone of leadership development, equipping, training, and inspiring individuals to take proactive roles within their communities. It instills a sense of civic responsibility, encouraging Fellows to lead reconciliation and peace initiatives that drive community development. In recognition of its impact, the program expanded to international Fellowship in 2021, broadening its reach and scope across Africa and strengthening its Pan-African identity with a global solidarity approach. The Fellowship is structured into three modules/sessions, allowing participants to convene quarterly for an intensive one-week, in-class physical training over the course of a year. What makes the COFP Fellowship unique is its contextual relevance; designed, implemented, and continuously refined by Africans for African communities.

To date, the Fellowship has successfully trained over 329 individuals across 16 African nations, fostering a network of change-makers committed to building a more peaceful and inclusive society. As we look ahead, COFP remains dedicated to expanding this transformative initiative, ensuring that peacebuilding efforts resonate across borders and generations, shaping a future where unity, dialogue, and coexistence prevail.

Introduction

Agatha Chikelue (Sr.) DMMM

The quest for peace has always been at the heart of human civilization, yet in many parts of the world, particularly in Africa conflict, mistrust, and division continue to challenge our collective aspirations for harmony and progress. Time and again, history has shown that sustainable peace is not merely the absence of war but the presence of justice, dialogue, and mutual respect among diverse communities.

It was against this backdrop that the vision for the COFP Fellowship Program was born. Recognizing the urgent need for proactive and strategic peacebuilding efforts, the Cardinal Onaiyekan Foundation for Peace (COFP) sought to create a transformative platform where faith leaders, community actors, and change-makers could come together to foster unity, counter violent extremism, and address the root causes of conflict.

The inspiration for this program stems from a profound belief that religion is force for good if well utilized and that peace is possible when individuals are empowered to become catalysts for change in their own communities. Across Africa, tensions fueled by ethnic, religious, and socio-political divisions have too often led to violence, yet history also proves that reconciliation is possible when people of goodwill commit to dialogue, understanding, and cooperation.

The COFP Fellowship was designed to be more than just a training initiative, it is a movement. It is a call to action for emerging leaders to step forward with courage, armed with knowledge, skills, and networks to promote peace, bridge divides, and strengthen the social fabric of their communities. Through this program, Fellows are not only equipped with theoretical insights but are also given practical tools to navigate the complexities of mediation, conflict resolution, and interfaith dialogue in real-world contexts.

At its core, the COFP Fellowship embodies the conviction that peace is a shared responsibility, one that requires commitment, collaboration, and an unwavering dedication to building societies rooted in tolerance, justice, and coexistence. As this journey unfolds, each Fellow becomes a testament to the power of interfaith and intercultural collaboration, proving that a peaceful Africa is not just an ideal, but a tangible reality we can collectively achieve.

The chapters in this book have consistently demonstrated that interreligious dialogue, conflict transformation, and mediation are essential tools in tackling contemporary global challenges. As the world grapples with religious tensions, social divisions, and violent extremism, our Fellows are equipped to serve as ambassadors for peace, ensuring that dialogue transcends words and translates into practical, impactful action. Lessons from their experiences underscore the great potential of interfaith dialogue and action.

As Africa continues to traverse the complexities of peace and security, the role of dedicated individuals and organizations in fostering understanding, dialogue, and collaboration remains indispensable. The COFP Fellowship Program stands as a beacon of hope, equipping a new generation of leaders with the tools to bridge divides and champion the cause of peace.

Empowering a New Generation of Peacebuilders: Celebrating 15 Years of Building Bridges for Peace 2024/2025 Cohort

The Cardinal Onaiyekan Foundation for Peace (COFP) proudly ushered in its 2025 Fellowship Cohort on July 28th, marking the seventh year of this landmark program dedicated to nurturing transformative peace leadership across Africa. This year's cohort consists of 48 outstanding emerging leaders drawn from Ethiopia, Ghana, Zambia, Liberia, and Nigeria reflecting the program's dedicated commitment to cross-cultural collaboration, inclusivity, and regional diversity. Representing a broad spectrum of professional, social, academic, and religious backgrounds, the 2025 Fellows enriched the program with their unique perspectives and lived experiences. They came from both Christian and Muslim communities across the continent, embodying COFP's vision of interreligious harmony and shared humanity. Collectively, their presence highlighted the dynamic tapestry of Africa's cultural and spiritual landscape.

Over the course of one intensive year, the Fellows completed 150 credit hours of structured learning at the Cardinal Onaiyekan Foundation for Peace. The Fellowship's design emphasizes a rigorous and immersive learning environment that blends academic inquiry with real-world application. Beyond classroom lectures, participants implemented community-based peacebuilding projects, enabling them to translate theoretical knowledge into tangible impact within their home communities. These projects responded to local conflicts, social tensions, and emerging peace and security challenges, demonstrating the Fellows' ability to apply interfaith dialogue, conflict transformation, and mediation strategies in practical ways.

Upon completing the comprehensive three-module curriculum, the Fellows were awarded Certificates in Interreligious Dialogue, Conflict Transformation, and Mediation during a memorable graduation ceremony held on May 17th, 2025. This certification jointly conferred by the COFP Foundation, Veritas University of Nigeria (VUNA), and Nile University of Nigeria (NUN) underscored the program's academic rigor and the institutional commitment to fostering peace-driven leadership across Africa. Beyond receiving their certificates, the graduates were formally inducted into the COFP Africa Network of Peacebuilders (CANEP). This dynamic network serves as a continental hub for ongoing collaboration, peer learning, and the sustained exchange of innovative peacebuilding strategies. As members of CANEP, the Fellows now join a growing community of practitioners dedicated to shaping Africa's peace and development landscape.

Empowered with knowledge, equipped with practical skills, and strengthened by the values embedded in the Fellowship, the 2025 graduates now step forward as committed Peace Ambassadors. They carry with them a renewed determination to promote dialogue, counter violent extremism, advance social cohesion, and build bridges across religious, ethnic, and cultural divides. Their journey represents the enduring legacy of the COFP Fellowship Program, one that continues to inspire and prepare a new generation of African leaders capable of transforming their societies and championing sustainable peace all over the continent.

Significantly, this year marks COFP's 15 years of existence, 15 years of inspiring peace, justice and interfaith harmony. We celebrate our impact, honor our challenges, and renew our vision for a more inclusive, peaceful world.

I am deeply grateful for the opportunity to learn, unlearn, and relearn through the Cardinal Onaiyekan Foundation for Peace (COFP). I came into the Fellowship with an open mind and a desire to grow, and I can confidently say that it has strengthened my capacity to address community challenges, particularly interreligious and intercultural conflicts. I was also equipped with practical strategies for addressing injustice and minimizing bias, which have further enhanced my ability to carry out my responsibilities with fairness and clarity. Personal Reflection

At the end of the One-Year COFP Fellowship Program: An Unforgettable Experience

"Before the Fellowship, I had undertaken trainings on cross-cultural communication and religious sensitivity. However, the Fellowship has given me a new perspective on interfaith relations that I never thought possible. For instance, the deep insight provided on Islam by a Catholic Priest who studied Islam in Egypt, and my best course to date, Fundamentals of Christianity, facilitated by a Reverend Sister, both provided me with such unbiased balance that now informs my worldview about religions generally and human beings in particular. I am no longer conscious of religious tempers with what I say or do, but most importantly of not offending any human being at all, regardless of creed, by not saying or doing something that they consider to be inappropriate. I now understand that we are all human beings who worship God differently and not the illusory dividing lines created by some Muslims and Christians as manifested in their unfortunate bid to outdo one another in religiosity." **Tersoo**

"My experience at the COFP Fellowship has been profoundly impactful. The carefully selected resource persons and the insightful themes they covered have in no small way deepened my understanding of interfaith relations. As a Christian, I have come to realize that many of the misconceptions that have led to the defamation of Islam are not rooted in the Quran or Hadith but are instead the actions of a few zealots. This awareness has strengthened my appreciation of our shared humanity; we are all children of God before we are identified as Christians or Muslims. Recognizing our many areas of common belief, I now see greater opportunities for collaboration in fostering understanding and strengthening relationships. This journey has left a deeply positive impact on me". **Andrew**

Personal Reflection

At the end of the One-Year COFP Fellowship Program: An Unforgettable Experience

"Despite my extensive background in peacebuilding and over seven years of working with a faith-based organization, I had never understood Christianity as deeply as I do now, thanks to the COFP Fellowship Program. Before joining the Fellowship, my approach to interfaith discussions was often rooted in comparative religion, aimed at affirming my faith as the only true path and encouraging others to embrace. However, through this Fellowship, I gained a deeper and more authentic understanding of various religious doctrines. My previous misconceptions especially about Christianity and the doctrine of the Trinity were clarified. I came to realize that some spiritual doctrines transcend human comprehension and that faith, in both Islam and Christianity, ultimately requires belief beyond logic. This experience has completely shifted my perspective on religious engagement. I have stopped participating in religious debates aimed at proving superiority and now approach faith with a mindset of mutual respect and acceptance. I now see religion as different paths leading to the same God, and I embrace the diversity of belief systems as a strength rather than a division". **Nura**

This understanding has strengthened my commitment to promoting peace and harmony in my community. The peace and harmony in my community. While the majority hailed from Nigeria, seven Fellows from other African nations joined the cohort, reinforcing the program's commitment to inclusivity and cross-regional engagement. These Fellows come from various Christian and Muslim sects/denominations across Nigeria and Africa, creating a rich tapestry of religious and cultural diversity. Throughout a rigorous, immersive, and participatory one-year Fellowship, they completed the required 150 credit hours of study at the Cardinal Onaiyekan Foundation for Peace and implemented meaningful peace projects in their communities.

On May 4, 2024, they received Certificates in “Interreligious Dialogue, Conflict Transformation, and Mediation” by COFP Foundation in collaboration with Veritas University of Nigeria (VUNA) and Nile University of Nigeria (NUN). This graduation not only marks an academic achievement but also formally inducts them into the COFP Africa Network of Peacebuilders (CANEP), ensuring continued engagement, knowledge exchange, and collaborative peacebuilding efforts across the continent.

With the training received through the Fellowship, the expectation is clear. Class of 2023

Strengthening Bonds, Deepening Impact: Expanding the African Network 2022/2023 Cohort

The COFP Fellowship Program advanced into its 5th year with the Class of 2023, which commenced in July 2022, welcoming 63 Fellows. Continuing its international scope, the program comprised ten Fellows from Ghana, Liberia, the Central African Republic, Sierra Leone, Cameroon, Kenya, Sudan, Uganda, and Chad, alongside the majority Nigerian cohort. Representing a broad spectrum of religious traditions, the Muslim Fellows came from Sunni, Shia, NASFAT, Qadiriyyah, Ahmadiyya, and Tijjania sects, while the Christian Fellows hailed from Catholic, Baptist, EYN, Orthodox, Presbyterian, Pentecostal Fellowship Mission, Lutheran, and Anglican denominations.

Over the course of a transformative one-year Fellowship, participants successfully completed 150 credit hours of study at the Cardinal Onaiyekan Foundation for Peace and executed transformative community peace projects across their respective regions. Upon fulfilling the program's rigorous academic and practical requirements, the Fellows were awarded Certificates in “Interreligious Dialogue, Conflict Transformation, and Mediation” on May 13, 2023, by COFP Foundation, in partnership with Veritas University of Nigeria (VUNA) and Nile University of Nigeria (NUN). With this milestone, the graduates officially join the COFP Africa Network of Peacebuilders (CANEP), a dynamic network that fosters continuous engagement, cross-cultural exchange, and collaborative peacebuilding across Africa.

We are confident that the training provided in Interreligious Dialogue, Conflict Transformation, and Mediation has equipped the Fellows to serve as Peace Ambassadors. Their success in this endeavor depends on applying the knowledge and skills acquired. That is what it means to be a COFP Fellow.

“My experience at COFP Fellowship program so far has been so wonderful. At times when I look back, I wonder why and how I was able to scale through the screening process from a large number of applicants. The program has been excellent. Very impactful, educative, and enriching. It has broadened my mind and widened my horizon when it comes to peacebuilding, conflict management, and resolutions. It has really improved my interfaith relationship. I have been able to meet and interact with people of diverse religious ethnicity and socio-cultural, backgrounds. I have established sound relationships with participants both within and outside Nigeria. I was able to understand that we Africans share almost everything in common. Conflicts, racial and religious discrimination are not limited to Nigeria alone but are common issues in African nations. With the introduction of the COFP Fellowship program and its continuity, peace will surely reign supreme in Nigeria and Africa as a whole.” ~

For me now, it is necessary that I teach those whom I live and work with to understand the need of living peacefully. At the End of the One-Year COFP Fellowship Program: An Unforgettable Experience

“So far, the Fellowship program has changed my way of thinking about inter-religious dialogue, Conflict transformation, and meditation and the way I perceived other faiths and ethnic groups. What changed my mind and how I view people as I started attending the COFP Fellowship program was the video clip on the "danger of a single story". Before I was ignorant and judgmental in dealing with other religious and ethnic groups, the single story always 'rubbed off my identity'. Through my participation in the first and second modules of the COFP Fellowship program, I have changed my views and I realized that change begins with me in dialogue and peaceful coexistence.” ~~ **Jones**

Personal Reflection At the End of the One-Year COFP Fellowship Program: An Unforgettable Experience

“My experience so far in the COFP Fellowship has been very enlightening. One of my philosophies in life is that when we stop learning, we stop living. The experience has been and is definitely worth it. My mind has been greatly enhanced in the course of the modules and even the community peace project. The power of the mind shift I have now has allowed me to see others in a better, clearer, and more appropriate light. I am particularly happy because acknowledging others does not take away from us. I also learned the importance of accommodation because for a long time, it has been about religious tolerance, and it should not be so. I also must applaud the inclusive approach in the Fellowship program and ask that many more Persons with disabilities be included in the peace Fellowship. I must add, that beyond the learning modules, the interaction with other COFP Fellows, the staff and volunteers of the COFP Foundation, and the connect, has also been very rich.” ~ ~ **Ndifreke**

Personal Reflection
At the End of the One-Year COFP Fellowship Program:
An Unforgettable Experience

“So far for me it has been wonderful, beginning from the welcome ceremony to the lecture sessions. I found the accommodation, feeding, and medical care commendable. The opening ceremony made me feel at home, loved, and accepted. This program has helped me learn, relearn, and relate with other Fellows to create a peaceful and positive impact in the community where I live and work. I found the experience-sharing from the Fellows and Facilitators of each course enriching. The WhatsApp platform has been an educative tool and has opened up an opportunity for self-growth and development for me.

Also, I found the COFP peace project program which empowered me to implement a community peace project that has created a great impact in my community as a privilege and a wake-up call to make peace in our world irrespective of our religion, colour, and nationality. This community peace project was another touching and memorable aspect for me and all the participants. It helped me to see the vulnerability of life through each participant as they shared the hurt of their widowhood experiences and got that inner healing from the stories of their common misfortune. I felt happy as the women were happy with the skill acquisition and empowerment and how they gladly gave me the chance to put my counselling skills into practice every time they needed my services.” ~ **Blessing**

At the End of the One-Year COFP Fellowship Program: An Unforgettable Experience

“At the COFP Fellowship Program, I was able to grasp many theoretical concepts and practical skills for transforming conflicts and conducting dialogues for peace. Besides, I was able to come together with my African Fellows to find solutions to African problems. I got enlightened as well that we Africans need to look into ourselves and take the initiatives to commence self-supporting community or national projects than looking for external aid or support. I was also inspired that as a continent, Africa has to have strong media with African color and culture which promotes indigenous thoughts, practices, and ways of living. In short, the whole of my experience at the COFP Fellowship could be summed up by saying "look at what the Pastor and the Imam have done" or "For a bright future, Please Africans Come Together." ~ **Megerssa**

Chapter Four

2021/2022

**COFP
FELLOWS**

Class of 2022

Bridging Borders, Building Peace: The First International Cohort 2021/2022 Cohort

The journey to the 2021/2022 COFP Fellowship Program, now in its 4th year with the Class of 2022, began in July 2021 with a total of 60 Fellows. This year marked a significant milestone as the Fellowship expanded internationally. While Nigerian Fellows remained the majority, ten participants were drawn from across Africa, including Ghana, Liberia, the Central African Republic, the Democratic Republic of Congo (DRC), Kenya, Zambia, Somalia, Morocco, and South Africa. These Fellows represent a diverse range of Christian and Muslim sects/denominations across Nigeria and Africa. Among the Muslim sects are Sunni, Shia, NASFAT, Qadiriyyah, Ahmadiyya, and Tijjania, while the Christian denominations include Catholic, Baptist, EYN, Orthodox, Presbyterian, Lutheran, and Anglican.

Through a rigorous, intensive, and participatory one-year Fellowship Program, Fellows successfully completed the required 150 credit hours of study at the Cardinal Onaiyekan Foundation for Peace and implemented individual community peace projects in their respective states and countries. Having fulfilled all graduation requirements, they were awarded Certificates in “Interreligious Dialogue, Conflict Transformation, and Mediation” on May 21, 2022, by COFP Foundation in partnership with Veritas University of Nigeria (VUNA) and Nile University of Nigeria (NUN).

Their graduation formally inducts them into the COFP Africa Network of Peacebuilders (CANEP), an expanding network that fosters ongoing interaction, cross-cultural learning, joint peacebuilding interventions, and experience-sharing across the continent. With the training received in Interreligious Dialogue, Conflict Transformation, and Mediation we are certain that Fellows were empowered to become Peace Ambassadors. This means great expectations lie ahead, as they apply their skills to address today's conflicts.

By turning lessons into action, these Fellows will play a crucial role in preventing and countering violent extremism, recognizing the vital role of community and religious leaders as well as civil society actors. We believe that their shared commitment and collaborative efforts will ripple through their communities, advancing religious harmony, peaceful coexistence, and community development. This is the true essence of being a COFP Fellow.

It is NOT ENOUGH to talk or give lectures on peace, but the actions that follows it makes a bigger impact. I will personally like to commend the Foundation for also giving me the opportunity to bring down to my local community a glimpse of what we have been taught, through the seminar I organized on peace talk & skills acquisition & empowerment. However, for the purpose of brevity, most important is the opportunity of obtaining more knowledge on my faith as a Christian and how to relate more friendly and peacefully with others that are not of the same faith with me. The program has deepened my understanding on the situation that people's reactions especially in our Country Nigeria towards religious differences basically is due to either the person lack in adequate knowledge about their religion or that the religious leaders preach what is not obtained in the various religious books. My perception about how to live peacefully in Nigeria and even globally is possible if this program is given more publicity especially through our various learning institutions. We need peace in our communities, states and the entire country now more than ever and it can be achieved. I am proud to be a COFP Fellow.” ~ Shaljaba

It has informed, educated and transformed my perception for peace and related issues in the society so much that I can stand as a peace mediator for the voiceless and less privileged in the society. COFP has empowered me immensely & I was able to empower other women in my community who were jobless to become self-reliant and also peace ambassadors. Through the enlightenment from this Foundation, I have been able to establish a platform known as The Way Forward Initiative which aims at educating and empowering women. We have begun the journey and it is really helpful. Hail COFP! Hail Cardinal Onaiyekan!! Thank you, Hilton Foundation. God bless your efforts to serve humanity.” ~~ **Thecla**

“Peace is a natural yearning of the human heart but only a few fervently work to keep it, and give it. To this effect, I must admit wholeheartedly that I have had a better opportunity undergoing this program of the Cardinal Onaiyekan Foundation for Peace to become a better and balanced peace actor in my community. The program has been deeply therapeutic with immense healing effects and has broadened my horizon personally that there is a bigger world outside the world I know. It has given me a broader view of the dangers of stereotypes either religiously, ethnically, culturally etc. Peaceful and harmonious coexistence is sacrosanct to engineering collaboration amongst different faiths in Nigeria and elsewhere and all hands must be on deck to achieve this at the home front, in communities and nationally as a country, and globally as well. The Cardinal Onaiyekan Foundation for Peace has not only given me a platform to leverage upon, it has even more equipped me with the rudimentary and requisite skills and for this I am always grateful.” ~~ **Boniface**

Team Spirit in action. Their spirit of teamwork inspired me in my own working place and added value to how I related with my team members. Then, the interactions between the two major religions in Nigeria: Christianity and Islam. I felt like calling the whole world to come and witness how we can live as children of one God. I always look forward to our meeting with one other. There is so much knowledge to share each time we gather. Then the contents of each topic, the peaceful ambience of each lecturer that comes, the desire to assimilate everything that was being taught, were all good experiences which make good memories. I use this opportunity to thank the Founder, His Eminence, John Cardinal Onaiyekan, the Director, Sr. Agatha Chikelue and her Team. Thanks to you all, my dear Fellows. “Peace is a daily, weekly, monthly process, of gradually changing opinions, slowly eroding old barriers, quietly building new structures.” John F. Previously I see peace as talking things over but peace can also be achieved when I decide to let some things go. I have a part to play in maintaining peaceful coexistence by doing the best I can from the story of the humming bird and to avoid single stories. Retaliation does not bring peace but dialogue goes a long way to resolve issues especially dialogue with the right persons and also the reality of conflict that I have learned to live with daily, in addition to the conflict management styles of accommodating people, avoiding issues, collaborating with people who have interest in peaceful coexistence. “And let the peace of Christ rule in your hearts, to which indeed you were called in one body. And be thankful” (Co. 3: 15). With this quotation, permit me to say that my going for the 1st and 2nd module of the Cardinal Onaiyekan Peace Foundations which was centered on the Inter-Religious Dialogue, as well as Conflict Transformation and Mediation was an eye opener for me. This program broadened my knowledge more on the teachings about Islamic belief in God (Allah), and Christian belief in God. Both religions centers on peace and unity, and of the fact that we are all from the same Father in faith, Abraham. My experience of meeting with Fellows from different religions and background, coupled with various educational knowledge and skills, both within Nigeria and other African countries, gives me a true judgement of the reality that living in harmony among ourselves, (Christians and Muslims alike), is 100% feasible by having free minds and sincere fraternal love for each other. For this reason, I am longing to be an ambassador of peace wherever I go, and whenever the opportunity arises. May Almighty God continue to bless the Foundation to grow from strength to strength, Amen. Thank you, Hilton Foundation and God bless.” ~~ **Titiloye**

The growing animosity and division in Nigeria is something that if not checked can lead to another road to "Rwanda". The Fellowship program has accorded me the opportunity to see life in another light. Our shared humanity goes beyond religious and tribal difference. I now have very good friends who are Muslims from all over the country. Over the years I have been working on peace matters but from within the Christian family. The Fellowship program has given me the training and capacity to look beyond that and seek to work for peace amongst my Muslim brothers and sisters. Lastly, the realization that there are people who have the same mind-set with me who are Muslims has made this task a lot easier. Looking forward to years of self-sacrifice and service to this world in bringing the much-needed peace.'

Established in 2010 by John Cardinal Onaiyekan, the Foundation recognizes that most conflicts in Africa (despite their ethno-religious colorations) are symptoms of deeper structural problems arising from all manners of exclusion religious, ethnic, political, economic, gendered that can only be adequately resolved through governance structures that are both ethical and just.

COFP therefore strives to address these challenges by, among other things, promoting ethical leadership, offering a space for faith leaders, citizens and political leaders at all levels to engage in discussions for peace and development. The Foundation also assist in providing conflict parties with critical skills for peacebuilding, conflict management and transformation within their communities.
